SECTION I
INTRODUCTION

1. Scope

This manual lists repair parts, special tools, and support equipment required for the performance of organizational, direct support and general support maintenance of commercial rifles. See figures 1 through 6.

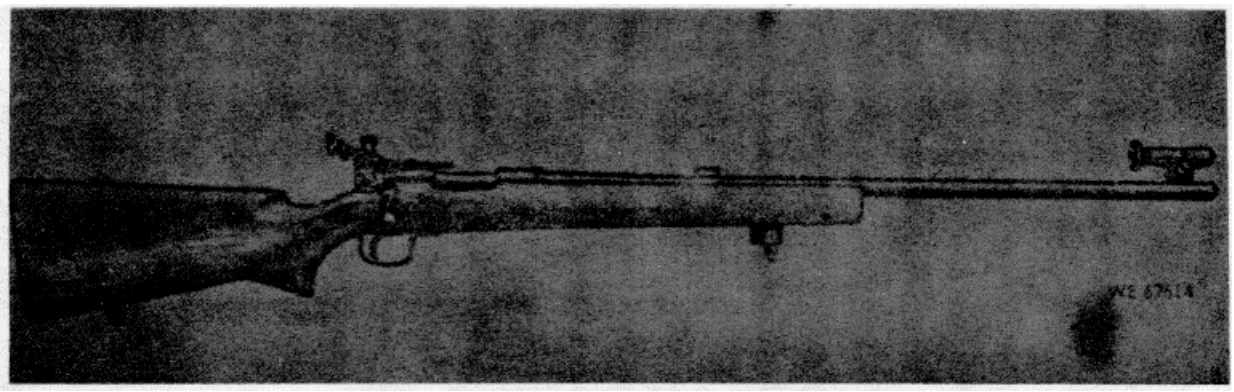

Figure 1. Caliber .22, Remington Rifle, Model 40X-H1, (Match Grade)

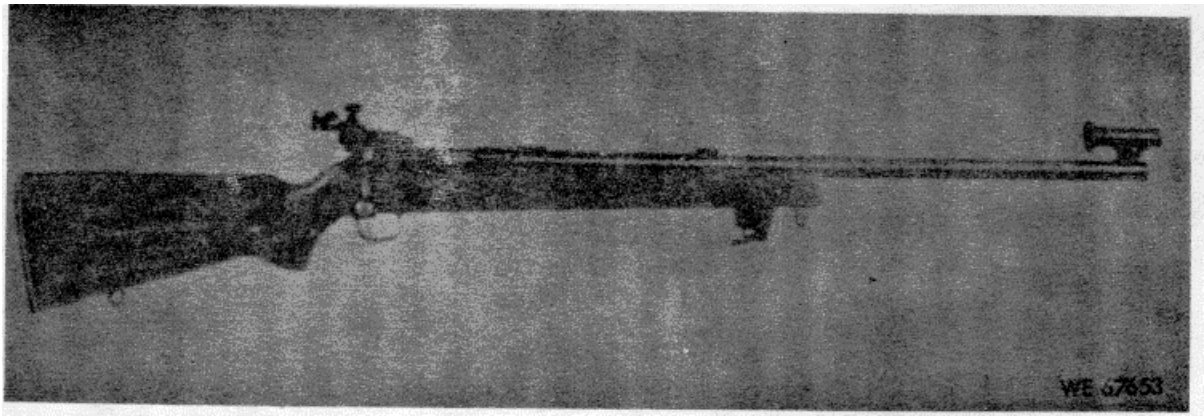

Figure 2. Caliber .22, Winchester Rifle, Model 52D, (Match Grade)

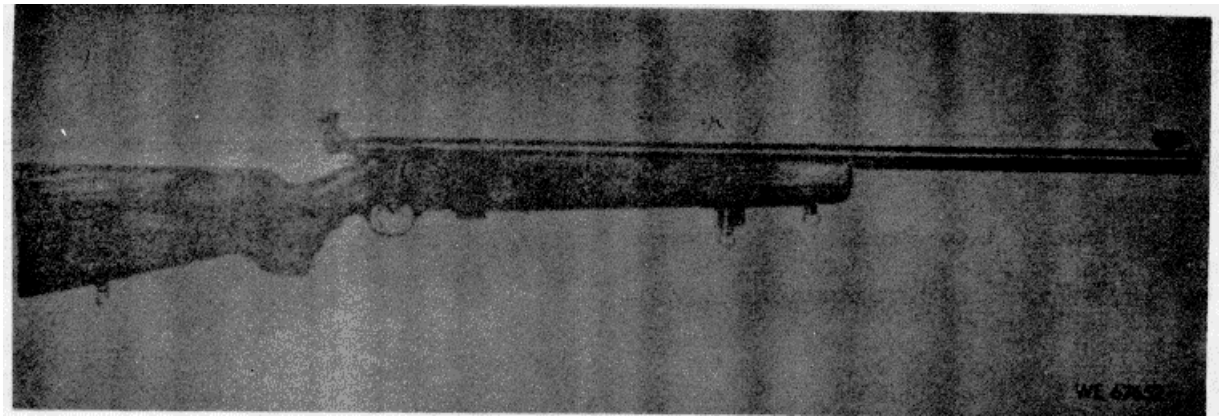

Figure 3. Caliber .22, Mossberg Rifle, Model 144US (Training Grade)

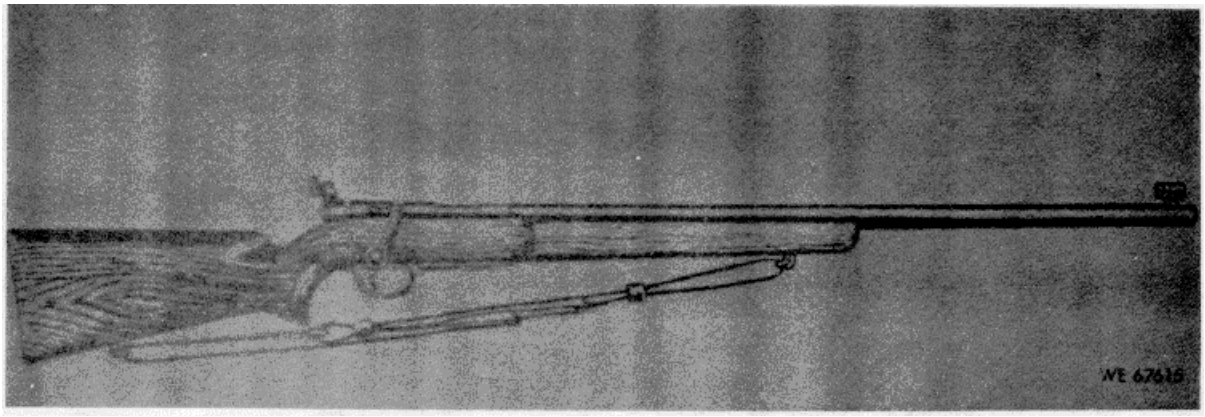

Figure 4. Caliber .22, Remington Rifle, Model 513-T (Training Grade)

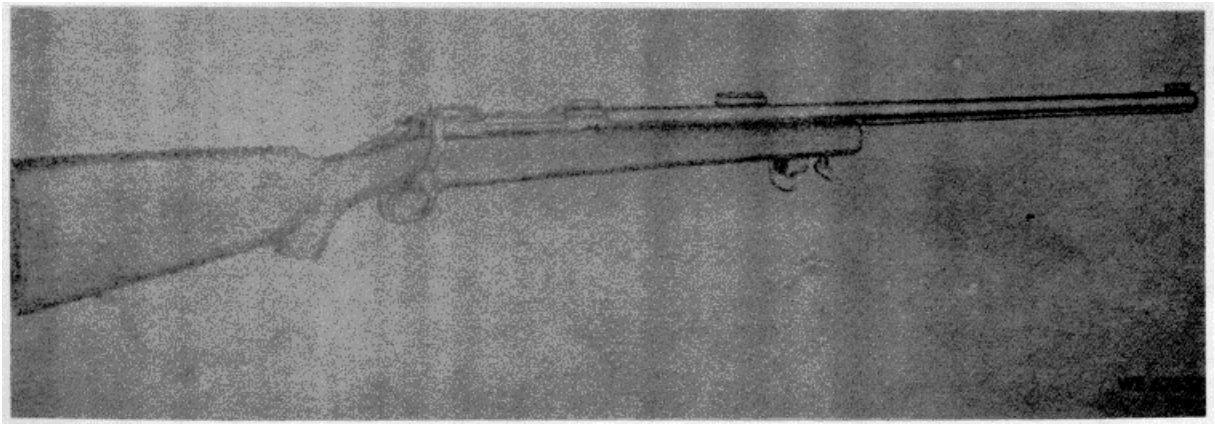

Figure 5. Caliber .30 , Winchester Rifle, Model 70, chambered for 30-06 (Match Grade)

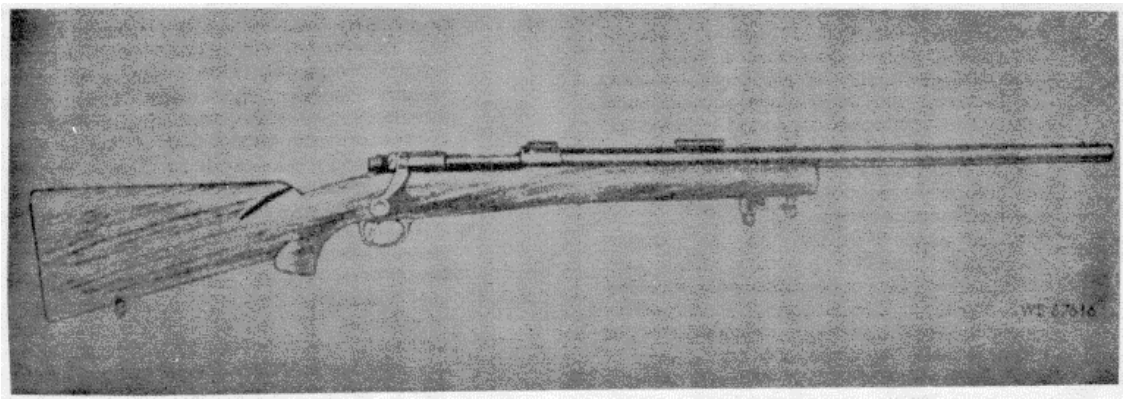

Figure 6. Caliber .30, Winchester Rifle, Model 70, chambered for .300 H and H Magnum (Match Grade)

2. General

This Repair Parts and Special Tools List is divided into the following sections:

a. *Basic Issue Items List.* Not applicable.

b. *Items Troop Installed or Authorized List.* Not applicable.

c. *Repair Parts - Section II.* A list of Repair Parts authorized at the organizational level for the performance of maintenance. It also includes parts which must be removed for replacement of the authorized parts. Parts lists are composed of functional groups in ascending numerical sequence, with the parts in each group listed in figure and item number sequence.

d. *Special Tools List - Section III.* A list of special tools, test and support equipment authorized for the performance of maintenance at the organizational level.

e. *Repair Parts List - Section IV.* A list of repair parts authorized at the direct support and general support levels for the performance of maintenance. The list also includes parts which must be removed for the replacement of the authorized parts. Parts lists are composed of functional groups in ascending numerical sequence, with parts in each group listed in figure and item number sequence.

f. *Special Tools List - Section V.* A list of special tools, test and support equipment authorized for the performance of maintenance at the direct support and general support levels.

g. Federal Stock Number and Reference Number Index - Section VI. A list, in ascending numerical sequence, of all Federal stock numbers appearing in the listings, followed by a list, in alpha-meric sequence, of all reference numbers appearing in the listings. Federal stock number and reference numbers are crossreferenced to each illustration figure and item number appearance.

3. Explanation of Columns

The following provides an explanation of columns found in the tabular listings.

a. *Source, Maintenance and Recoverability Codes (SMR).*

(1) *Source Code.* Indicates the source for the listed item. Source codes are.

Code	*Explanation*
P	Repair parts, special tools and test equipment supplied from the GSA/DSA, or Army supply system, and authorized for use at indicated maintenance categories.
P2	Repair parts, special tools and test equipment which are procured and stocked for insurance purposes because the combat or military essentially of the end item dictates that a minimum quantity be available in the supply system
P9	Assigned to items which are NSA design controlled- unique repair parts, special tools, test, measuring, and diagnostic equipment which are stocked and supplied by the Army COMSEC Logistic System and which are not subject to the provisions of AR 380-41.
PI0	Assigned to items which are NSA design controlled special tools, test, manufacturing and diagnostic equipment for COMSEC support which are accountable under the provisions of AR 380-41, and which are stocked and supplied by the Army COMSEC Logistic System
